

# Techlink Project

DESIGN & TECHNOLOGY AT KEY STAGE 2 & 3

## Techlink Project

SECONDARY AND PRIMARY LINKS

Design and Technology at Key Stage 2 and 3. The TECHLINK Project addresses the government issues of Key Stage 2 and Key Stage 3 integration. It is an ideal project for Specialist Schools as it is a sustainable and deliverable community project and addresses the outcomes required by the Specialist Schools Trust.

The Medlock Charitable Trust and Denford Education Support Service have developed the TECHLINK Project alongside Hayesfield School in Bath. The school has developed the courseware in association with its primary school cluster and has proved the outcomes over the last two years. Any Secondary School that wishes to work closely with their cluster Primary Schools can apply to the Medlock Charitable trust for financial support. In the first instance please contact Denford or Mr David Barnard on the numbers below.

### The TECHLINK Project's Primary Education Package\* contains the following items:

- Craft ROBO Vinyl Cutter Plotter (CAM).
- Master ROBO Design Software.
- Primary Education Pack:  
Consumable materials to make the projects – including card, vinyl, magnets, acrylic mirrors and other items to get you up and running.
- Supporting Courseware to cover INSET for embedding in the curriculum.
- Half a day INSET Training.
- Spare carrier sheet & cutter.

\* Applies to Techlink Project only

### Craft ROBO Cutter/Plotter (CC330-20)

Machine Dimensions  
420mm x 140mm x 112mm.

An ideal entry level introduction to CAD/CAM, the Craft ROBO is a compact cutter/plotter that uses standard A4 size material. It is very simple to use and comes complete with wizard based design software and auto registration marker. Designs can be drawn using a standard ballpoint pen in the machine, and the supplied cutter heads allow the cutting or scoring of vinyl and card including pre-printed designs to produce imaginative artefacts and models.

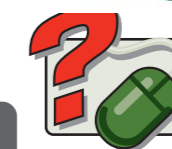

### The Craft ROBO comes complete with:

- Wizard based design software.
- Cutting heads.
- Auto registration mark detector.
- Consumables starter pack.
- 12 month warranty.

### Also Available: Craft ROBO Pro II

A3 Size Material
