# VIRTUAL REALITY FLASH SCREEN LICENCE SOFTWARE.

# REGISTERING YOUR VIRTUAL REALITY SOFTWARE.

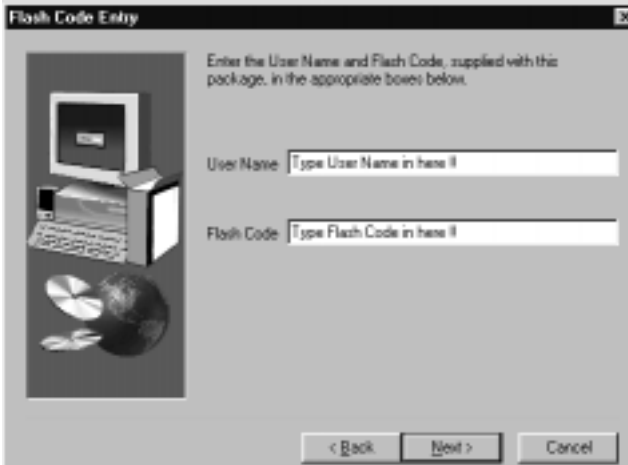

The following procedures apply to flash screen software users, rather than dongle software users:

A dongle (shown in the installation guide) does not need to be fitted to the parallel port of your computer.

Install the virtual reality software as described in the separate installation guide. Note, your computer must be restarted in order to complete the installation. At this stage, the virtual reality software will run on your computer in demonstration mode only.

The "Flash Screen Licence" software is supplied on one floppy (3 1/4 inch) disk. Insert this disk into the floppy drive of your computer. Double-click the left mouse button on the "My Computer" icon. In the My Computer window find your floppy disk drive icon (usually labelled "A:") and double-click the left mouse button on this icon.

Double-click the left mouse button on the file named "Setup.exe" to start the "Flash Screen Licence" software (shown below).

The image shows a Windows-style dialog box titled "Flash Code Entry". On the left side of the dialog is a grayscale illustration of a vintage computer setup including a monitor, a tower unit, a keyboard, and a 3.5-inch floppy disk. On the right side, there is instructional text: "Enter the User Name and Flash Code, supplied with this package, in the appropriate boxes below." Below this text are two input fields. The first is labeled "User Name:" and contains the placeholder text "Type User Name in here !!". The second is labeled "Flash Code:" and contains the placeholder text "Type Flash Code in here !!". At the bottom of the dialog are three buttons: "< Back", "Next >", and "Cancel".

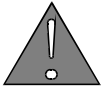

# REGISTERING YOUR VIRTUAL REALITY SOFTWARE.

Enter your "User Name" and "Flash Code" in the dialog boxes. Note - your User Name and Flash Code must be entered **exactly** as shown on your registration certificate, noting the letter case, spaces and any "-" (minus) signs.

Press the [Next] button to continue, then [Confirm] that your details are correct. Click the [Finish] button to complete the registration of the software.

Your licence details will now be displayed when the virtual reality software is started (shown below).
